

RECOMMENDATIONS OF THE WORKING PARTY

- The Parish to encourage the provision of secure cycle parking within the Parish, to connect with Public Transport, and thus encourage the greater use of buses.
- The Parish to consider replacing Parish vehicles with hybrids or EV's if suitable, when they are due for replacement.
- The Parish to support and promote car sharing, through the display of banners in prominent areas.
- The Parish to develop an action plan to install Photo Voltaic solutions on parish properties.
- The Parish to adopt the use of environmentally friendly paper.
- The Parish to support the composting of food waste produced by hotels and restaurants in compliance with present legislation.
- The Parish to consider divesting from fossil fuel investments.
- The Parish to consider installing LED street lights and bulbs when due to be replaced.
- The Parish to adopt a new approach to green spaces eg parks, gardens and verges with the planting of trees and pollinator patches where appropriate.
- The Parish to consider using eco active/green business when selecting suppliers of goods and services.
- A special issue of La Baguette to be produced by the working group detailing initiatives being made at Parish level and encouraging domestic changes.
